

Every student at NPC is expected to develop the habit of service. Serving can take many different shapes - whether in the community, at church, etc. Though we hope students far exceed this number, every student is asked to report **10 service hours** by the end of the year. There is no form to keep track or hand in, but students will complete a short essay on their second semester Bible class final stating approximately how many service hours were completed and a summary of how those hours were spent.
